13. T -	33. B -	53. B -
14. F -	34. D -	54. D -
15. NS -	35. D -	55. C +
16. T -	36. C -	56. A -
17. + -	37. C -	57. B +
18. F +	38. A -	58. A +
19. NS -	39. D +	59. D -
20. T +	40. C +	60. C -

$$27 + 12 = 39$$

## WRITING

Online and in-store shopping is an important problem of choice for everyone customer. Actually, I want to tell you what's is really better and useful for people thanks to diagram.

I can identify two main features of the statistics presented in the table. The first one is that the grocery in-store, because it is the best way to receive the important product for our life. And the second key feature is that only twenty three percent of people prefer buying different thing in online shop, maybe for them it's is more comfortable and sooner.

It is also worth mentioning that the number of people enjoying buy computers and electronics (51%) and clothes and footwear (51%) because these thing often cost cheaper than in-store.

In my opinion, the statistics in the table reveal an important problem. We can see that lots of people like the online shopping because the reason of it is in<sup>in</sup> modern world in which is the worldwide kind of shopping. However, I prefer in in-store because I think it is's keep make me calm about size and refunds problem.

In conclusion, I believe that online shop more popular among people in modern world, but for several more comfortable to go in store.
